

Quiet!

It's amazing what you can hear...when you listen to the quiet...

It's all gone quiet.

Or has it? Listen carefully.

Bubble. Hum. Ping.
Chomp. Crunch. Munch. Burp!
Snore. Whirr. Pitter-patter. Swish.

The world is alive with sound.
And you can only hear it

When
You're
Quiet!

Come and experience some typical sounds of an everyday house through the eyes, or rather the ears, of the toddler narrator in this delightful, onomatopoeic picture book written and illustrated by Kate Alizadeh.

PENpal – Innovation in audio for children's books

Mantra Lingua's PENpal brings dual-language stories alive, with dual-language audio on every page. When a reader touches the page, this clever, innovative digital pen reads the text aloud, in any of the languages in the books.

Listening to the lovely world of *Quiet!*, brought to life in everyday sounds, can help children with their Home Language and with English.

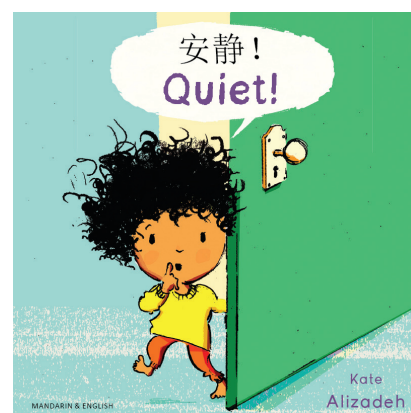

The images help children understand the story, and the PENpal helps with both comprehension and engagement. PENpal users can skip easily between languages, and using the 'record' function means they can even add their own voice to the pages. This helps to build confidence, encourages role play, and develops both literacy and oracy skills in English.
